I haven't done an osc.net site. By design. I can get you anything you need. Can you give me an idea what you are looking for?

Subject: Explo/Camp Minden Information Needed

Hi All,

Pam asked if we could look at this site for potential NPL consideration. I looked on EPAOSC.net for file information and could not find any (could be that I do not have full access). I also researched it on-line and talked to Bart regarding this site in relationship to LAAP. Can anyone provide me information about the site and EPA's current involvement so I can respond to Pam's request.
